(Record of item checked above)

TO: Paul Meiburger
 MDNR 314/751-3241

FROM: Karen Flournoy/
 Deb Mc Kinley

DATE 9-1-82
 TIME

SUBJECT

Litton ACD Springfield, Mo.

SUMMARY OF COMMUNICATION

The reporting method for total lead of 1.5 mg/l is unacceptable according to MDNR lab staff. 1.5 mg/l translates to ≈ 150 mg/kg (100x dilution)

Background lead levels 5-25 mg/kg.
 One soil sample taken tested at 66 mg/kg.

They want to go w/ 150 mg/kg - we all agreed to this. Litton will send in a letter requesting a change & we will respond.

sinkhole has been dug out & filled in

depth of first sample 2"-4" sludge + 2" limestone gravel
